

Physical Genomics Predoctoral Training Program Inaugural Quarterly Seminar

Tuesday, February 8 @ 1PM CT

*Physical Genomics: Engineering Living Systems at the
Convergence of Biological, Physical and Computational
Sciences*

Vadim Backman, PhD

Sachs Family Professor of Biomedical Engineering and Medicine
Director, Center for Physical Genomics and Engineering

Dr. Backman and PGTP Administrator Dr. Jayms Peterson will provide an overview of the NIH T32 Physical Genomics Training Program and discuss exciting developments and the groundbreaking potential of this fascinating new field of convergent science.

Sponsored by the NIH T32 Physical Genomics Training Program
